

# Austin Balarin

1624 Plymouth Rock Dr, Cherry Hill, NJ | abalarin@ramapo.edu | 210 - 380 - 8155

---

## Professional Goal

Energetic and eager to learn college student; I am looking for a summer internship or a Co-Op to compliment theory that I have learned and that I am currently learning. I am also looking to learn new programming languages and skills, and working on projects in a team.

---

## Work Experience

### Software Development Engineer in Test – Intern – iCIMS

Summer 2016

Developed new test cases to be run on the main platform using TestRail and Selenium. Updated outdated test cases and automated the modification of large blocks of code.

### Software Developer – Intern – PCRepairs

Summer 2014

As an intern at a computer repair and software development company based in San Antonio, Texas, I helped develop a POS system for a local fisherman company.

### Infantryman – NJ Army National Guard 2<sup>nd</sup> Battalion 113<sup>th</sup> IN Regiment

2012 - Current

As a team leader in recon I have trained and lead the soldiers under my command to accomplish missions in a joint task force with other specialty sections within my company and battalion.

---

## Education

### Ramapo College of New Jersey – Computer Science

2014 - 2018

**Related Courses:** Computer Science I & II, Assembly Language, Physical Computing, Data Structures, Science Problem Solving with Python, Web Application Development, Analysis of Algorithms.

## School Experiences

### President of the Computer & Technology Club

I have organized events and presentations with local companies and workshops for students and alumni. Also, I'm working with inner-city schools to teach students programming languages and the benefits of studying and working in the computer science field.

### Member of the Competitive Programming Club

As a club we practice solving problems in preparation for the ACM Regional Collegiate Programming Contest. We cover problems that require a good knowledge in data structures and items that are not usually including in the school curriculum.

---

## Personal Interests & Goals

I am an avid outdoor enthusiast. I love everything from rock climbing and mountain biking to snowboarding; I have camped, climbed, and hiked across much of the country including, California, Arizona, Colorado, Texas, New York, and New Jersey. I am currently training for an expedition to Alaska with the hopes of summiting Denali.
